

Section 0

1. Please confirm your consent to sign a bond for 30 months (including a 1-year internship).

- I confirm my consent to sign a bond for 30 months, including the 1-year internship. I am fully committed to fulfilling this period and am eager to contribute my skills and grow professionally with the organization.

2. Have you received the stipend and CTC details? Please confirm by providing the details here.

- Yes, I have received and reviewed the stipend and CTC details. As I understand, the stipend offered during the internship period is [mention stipend amount, if known], and the CTC upon completion of the internship is [mention CTC amount, if known]. Please let me know if I have understood this correctly.

3. Are you willing to relocate to Gachibowli, Hyderabad?

- Yes, I am willing to relocate to Gachibowli, Hyderabad. I am flexible with relocation and excited about the opportunity to work at your Hyderabad office, which I believe will provide a conducive environment for professional growth.

4. What motivated you to pursue a career in software testing?

- I was drawn to software testing because of its critical role in ensuring the quality and reliability of software. Identifying and resolving issues before they reach end users appeals to my problem-solving nature and detail-oriented approach. I enjoy working systematically to understand and improve software performance, ensuring a seamless user experience. This field offers a dynamic and evolving challenge that continuously motivates me to learn and apply new testing techniques.

5. Why do you want to join a software testing firm like Frugal Testing?

- I am very interested in joining Frugal Testing because of its strong focus on 'Continuous Testing' and 'Test Automation as a Service' (TaaS). I appreciate that Frugal Testing emphasizes using automated testing to enhance efficiency and support continuous integration in agile environments. I am particularly excited by the opportunity to work with an innovative team where I can apply my skills to contribute to high-quality software delivery. Joining Frugal Testing would allow me to grow my expertise in testing and automation while aligning with an organization that values robust and efficient testing methodologies.
